- e) Power cord
- f) On/off switch
- g) Clear bowl filter mounted on discharge.

TECHNICAL DATA

Type	Dry piston – dual head
Flow rate	2 m ³ /hr (33 litres/min)
Maximum vacuum	-97kPa
Max Pressure	480KpA
Motor	220 – 240 volts – 400 Watts – 1.7 amps
Weight	7.5kg
Dimension (pump only)	264 L x 200 H x 180 W
Dimensions with filter	340 L x 200 H x 180 W

PERFORMANCE

Vacuum level	Flow rate
0mm Hg	33 litres/min
300mm Hg	27 litres/min
400mm Hg	19 litres/min
500mm Hg	15 litres/min
